

HSAJET[®] **MiniKey** MKHP4

Coding & Marking made simple and fast. A compact printer with integrated printheads, ideal for integration in packaging lines.

MiniKey printer based upon HP TIJ 2.5 technology

The HSAJET[®] MiniKey is based upon reliable HP TIJ 2.5 technology which offers consistent, high quality, fast printing. The printer's user-interface is so easy to use, that it requires very little or no training. The MiniKey is a very low-cost printer, yet powerful with all necessary functions available.

An 'All-In-One' printer

The MiniKey is an 'out of the box' unit. Place an ink cartridge in the head, connect to power and print instantly just by pressing a button.

New layouts are easily made straight from the keyboard or loaded from USB key or via LAN or RS232 connection. The basic unit comes with a ½" printhead with built-in product sensor. The MiniKey can control up to 2" print height.

Trouble free user interface

A 320 x 240 pixel graphical colour display showing intuitive icons which ensures a clear understanding when choosing functions from the keyboard.

Choose from ½"-2" printheight

The HSAJET[®] MiniKey is available with an integrated 1 or 2-pen printhead mounted on the side of the

unit. If additional print height is required the MiniKey can be delivered with remote printheads of 1 or 2 pens. Having two printheads enables double-sided printing.

Advanced administrator options in software

A flexible user level management guarantees printing of onecon also correct data. You are also able to grant user rights as desired and protect by a unique password. In addition this content may be filled by a user prompt which optionally must be validated by a different user for guaranteed accuracy. The controller is preloaded with different menu languages, as well as localized month and day names.
